# Invitation

Welcome to **FERTIVISION 2023**

Dear Friends & Colleagues,

Greetings!

It gives us immense pleasure to invite you to Delhi, this December for the **19th Annual Conference of Indian Fertility Society, FERTIVISION, 2023**. The conference would be held on **8th, 9th & 10th of December** at **The Leela Ambience Hotel, Gurugram**.

Renowned national and international speakers across the globe, who have done great research in their specialty would be sharing their knowledge and experience. The theme of this conference is **"Enhancing Quality in ART"**. Going with the theme, the focus of all the experts will be on giving evidence based solutions and latest research. There will **17 Pre-Conference workshops** which are in collaboration with the special interest groups of IFS and cover the theme well. The main conference updates you on the basics and recent advances in Reproductive Medicine, covering innovative subjects such as Artificial intelligence, non-invasive pre-implantation genetic screening, novel strategies on ovarian stimulation, besides the challenges in trouble-shooting in both clinical and laboratory aspects of ART.

This time the theme for IFS was **"Quality Research and Academics"** and IFS has been encouraging good research works. There would be a prime time slot for the selected research papers. This conference will give ample opportunity to present research work through oral presentations and E posters with awards in various other categories.

We welcome our IFS members, trainees and colleagues to **FERTIVISION 2023!** We value your involvement in all the academic events of the conference. It is time to meet and greet friends, enjoy the hospitality of Delhi and at the same time exchange ideas, share scientific knowledge and present your research.

Looking forward to your participation in huge numbers.

With Our Best Regards
